

Dear Parent/Carer

Remote Learning for Students

To further enhance our remote learning package for students during periods of Covid-related isolation, we have created Trinity TV where all lessons can be found 'On Demand'.

This online platform, accessible via SharePoint, contains pre-recorded materials made by subject teachers to ensure that home learning is as engaging, purposeful and accessible as possible. Students will follow their timetable as normal and select the lessons relevant to their academy day. The video format will enable students to watch the lesson content at their own pace with the benefit of clear verbal instructions from teachers.

These video lessons have been developed by our colleagues at Trinity Academy Halifax, and were used throughout the last National lockdown, with much success. Students should watch the videos, pausing at the points where staff instruct them to, and complete their work on either paper or a digital device, whichever their preference. The videos may reference Microsoft Forms, and these are sometimes saved in the folders. This is a technology that we use only in the event of a school or year group closure. If students who are isolating would like to share their work with their teachers, they should email their work using their teachers' email address. Students can follow their normal timetable, and access the lessons that they would normally in school each day.

Students will need to use their school email login to access this Sharepoint. Please contact the academy if you need any support with this.

If you have any questions about this process, please contact the academy and ask to speak to your child's Year Manager

Regards
