

Name of Meeting: Parent Committee Meeting		Date: Tuesday 16 December 2025 @ 5.30pm	
Present: Tom Taylor, Kathryn Walker, Clare McQueen, N Fitzgerald, A Walsh, S Sharif, T Williams. Minutes: Kath Lyons		Location: Conference Room	
Apologies: B Goss, D Keegan, H Wray, L Slow.		Absent:	
Agenda	Information:	Actions	
1.	The Senior Leadership Group took the committee on a tour of the new building. Mr Taylor started the meeting by highlighting how much better the dining space is, the routine is much better, and the teaching spaces are bigger. Technology, the Learning Resource Centre, and the Green Room are really great spaces, some further changes will be made to these rooms moving forward.		
2.	Provision at Trinity Academy Bradford		
2.1	Equipment was highlighted and the positive way that students have taken responsibility for their equipment. The Lanyards have been a great success, but the plastic wallets are being looked at for better quality ones. The committee were asked if there was any feedback on this. It was suggested that some students like to have a planner, it was highlighted that planners are available in the academy if students would like one. Miss McQueen stated that we welcome all students into the building and she has not given out more than 3 lanyards so far.		
2.2	Toilet provision has now been sorted out, it was pointed out that students are not being told they cannot go to the toilets, however a lot of this happens during lesson 5 when they have just finished lunch. Miss Walker reminded the committee that swap over with lunches in the old building had caused a problem, the old toilets were not of a good standard. A member of the committee asked whether the students were happy with the open toilets near the eating area and it was confirmed that they were.		
2.3	The outdoor space is available for students, we have been a bit low on staff, but they are able to use it.		
2.4	We will be launching a Wider Study Programme; this will be 15 – 30 students who will have access to the resources used by the Scholars.		
3.	The next phase of the new build will be the demolition of the old building this will be finished by October 2026. There will not be too much disruption and will involve 5 stages with one gate to take out the rubble.		
4.	AOB The committee asked if the blank corner wall from the outside (sports hall) could be changed as it looks really plain from a distance. The committee were informed that we cannot make changes for 12 months, but this will be addressed after then. Meeting closed at 6.30pm.
